

Nasal Polyposis

Pathogenesis, Medical and Surgical Treatment

Önerci, T. Metin; Ferguson, Berrylin J. (Eds.)

1st Edition., 2010, XI, 311 p. 139 illus., 80 in color. With online files/update., Hardcover

- It covers the complete pathogenesis of nasal polyposis as well as its medical and surgical treatments with up-to-date information. Based on new research findings as well as new technical developments, this lavishly illustrated and reader-friendly book helps the reader to reach significant advances in the management of nasal rhinitis. It is written by well-known authors who are internationally recognized in laboratory research and clinical practice in this field.

Nasal rhinitis polyposis not only decreases the quality of life of affected patients, but the relationship between the upper and lower respiratory tract makes the treatment of this condition of critical importance.

New research findings, as well as new technical developments, have changed the conventional medical and surgical approaches to the treatment of nasal polyposis, which has resulted in significant advances in the management of the disease.

This reader-friendly and lavishly illustrated book is written by authors internationally recognized for their laboratory research and clinical practice in this field. It includes the latest information, and aims to help the reader improve the daily management of patients affected by nasal polyposis.

Content Level » Professional/practitioner

Keywords » ENT surgery - Medical treatment of polyps - Nasal polyps - Pathogenesis of polyps - Surgical treatment of polyps

Related subjects » Internal Medicine - Otorhinolaryngology - Pediatrics - Surgery

TABLE OF CONTENTS

History.- Epidemiology.- Histopathology.- Eosinophil.- Classification of polyps.- Radiologic Diagnosis of nasal polyps.- Pathophysiology of nasal polyps.- Mucin expression in Nasal Polyps.- Biofilms.- Superantigen.- Fungal hypothesis.- Nasal Polyposis and allergy.- Where are we in pathogenesis of nasal polyposis? - Nasal polyps and lower resp tract relationship.- NP aspirin intolerance - bronchial hyperreactivity.- Allergic fungal sinusitis.- Vasculitis including Churg strauss.- Nasal Polyps in Cystic Fibrosis.- Nasal polyposis in children - a differential diagnosis in

children and treatment algorithm.- Pulmonary - cardiovasc comp in nasal polyposis.- Nasal polyposis and anosmia.- New areas for investigation: Nitric oxide.- Modulating eosinophilic polypoid sinus disease with anti IgE and IL 5 modulation-present and future possibilities.- Diuretics.- Cortison therapy.- Antifungals.- Antibacterial therapy.- Aspirin desensitisation.- Where are we in the medical treatment of nasal polyposis.- Anesthesia in nasal polyposis.- Evaluation of surgical treatments.
